## 5 DEFINITIONS

- **Australian Privacy Principles (APPs)** – legally binding principles which are the cornerstone of the privacy protection framework in the Privacy Act.  
The APPs are structured to reflect the personal information lifecycle:  
Part 1 – Consideration of personal information privacy (APP 1,2)  
Part 2 – Collection of personal information (APP 3,4,5)  
Part 3 – Dealing with personal information (APP 6,7,8,9)  
Part 4 – Integrity of personal information (APP 10,11)  
Part 5 – Access to, and correction of, personal information (APP 12,13)
- **‘Personal Information’** – information or an opinion, whether true or not, about an individual whose identity is apparent, or can reasonably be inferred from, the information or opinion, whether the information is recorded in a material form or not. It includes all personal information, regardless of its source.
- **‘Sensitive Information’** – personal information that is given extra protection and must be treated with additional care. It includes any information or opinion about an individual’s racial or ethnic origin, political opinions, membership of a political association, religious beliefs or affiliations, membership of a professional or trade association, philosophical beliefs, membership of a trade union, sexual orientation or practices, or criminal record. It also includes health information.
- **‘Health Information’** – information or an opinion about: the health or disability (at any time) of an individual; an individual’s expressed wishes about the future provision of health services to him/ her; a health service provided, or to be provided, to an individual.
- **‘Records’** – The Privacy Act regulates personal information contained in a ‘record’. It includes a ‘document’ or an ‘electronic or other device’. It covers a wide variety of material. A ‘document’ includes anything on which there is any writing, anything from which sounds, images or writings can be reproduced, drawings or photographs.  
It excludes a generally available publication (e.g. a telephone directory); or anything kept in a library, art gallery or museum for the purposes of reference, study or exhibition.

- **'The School'** – Wycliffe Christian School
- **'Eligible Data Breach'** – Under the Notifiable Data Breach Scheme an Eligible Data Breach occurs when 3 criteria are met:
  - there is unauthorized access to, or unauthorized disclosure of, personal information, or a loss of personal information, that an entity holds
  - this is likely to result in serious harm to one or more individuals, and
  - the entity has not been able to prevent that likely risk of serious harm with remedial action. (Also referred to as 'Notifiable Data Breach')
- **'Serious harm'** – can be psychological, emotional, physical, reputational or other forms of harm
- **'Remedial action'** – action taken to prevent unauthorized access or disclosure of personal information
  - if remedial action prevents the likelihood of serious harm occurring, the breach is not an eligible data breach
  - for breaches where personal information is lost, remedial action is adequate if it prevents the unauthorized access or disclosure of personal information.

Students will generally be able to access and update their personal information through their parents, but older students may seek access and correction themselves.

- There are some exceptions to these rights set out in the applicable legislation.
- The School endeavours to ensure that the personal information it holds is accurate, complete and up-to-date.
- Personal information may be accessed or updated by contacting the School in writing. The School will require you to verify your identity and specify what information you require. (Personal Information Request Form)

- Providing access would be unlawful
- Denying access is required or authorised by or under law

### **9.3 Consent and Rights of Access to the Personal Information of Students**

The School respects every parent's right to make decisions concerning their child's education.

Generally, the School will refer any requests for consent and notices in relation to the personal information of a student to the student's parents/ guardians. The School will treat consent given by parents/ guardians as consent given on behalf of the student, and notice to parents/ guardians will act as notice given to the student.

The School may, at its discretion, on the request of a student, grant that student access to information held by the School about them; or allow a student to give or withhold consent to the use of their personal information, independently of their parents/ guardians. This would normally be done only when the maturity of the student and/or the student's personal circumstances so warranted.

### **9.4 Employment Records**

Employee records and acts done by the School as the employer of staff, if directly related to a current or former employment relationship, are exempt from the application of the Privacy Act 1988.

Examples of this type of information include the terms and conditions of employment, personal contact details, performance and conduct and salary details.

(APP 11)

The School's staff are required to respect the confidentiality of students' and parents' personal information, and the privacy of individuals.

### **10.1 Breach of Privacy**

A breach of privacy may result from mishandling information according to the Australian Privacy Principles.

A data breach concerns the security of personal information: and involves the actual unauthorised access to, or disclosure of, personal information; or the loss of personal information where the loss is likely to result in unauthorised access or disclosure.

Causes may be malicious acts of third parties; human error; systems failure; or failure to follow information handling or data security measures resulting in accidental loss, access or disclosure.

- (a) If a data breach is suspected, or confirmed, the school shall take remedial action as soon as is practicable to contain and limit the data loss or access; and to minimise the chance of serious harm to any individual affected by the breach.

- (b) The school shall assess all suspected, or confirmed, data breaches to determine whether it is an Eligible Data Breach. (see 10.2)

Exception: If the remedial action contains or limits the data loss and potential harm to individuals, the data breach is not a 'Notifiable Data Breach'.

- (c) The school shall investigate the circumstances, and take steps to address any issues and increase data security.

## **10.2 Notifiable Data Breaches**

The Notifiable Data Breach (NDB) scheme (from 22 February 2018) gives increased confidence to individuals in the event of a breach of privacy, to be informed of that data breach and to have an opportunity to protect their interests.

- (a) The school shall act as soon as is practicable to prevent further loss of, or access to, the data.
- (b) In event of a NDB, the school shall notify all affected individuals, directly or indirectly, of the NDB as soon as is practicable.
- (c) In event of a NDB, the school shall prepare a statement of prescribed information regarding the eligible data breach for the Office of the Australian Information Commissioner (OAIC).
