1. INITIAL RESPONSE

1.1. DETERMINING THE TYPE OF EMERGENCY

Listed below are examples of different types of emergencies:

- Acts of Violence/Disorderly Behavior
- Biological or Chemical Threat
- Bomb Threat or act of aggression by an individual or group
- Explosion/Threat of Explosion
- Fire On-Site
- Fire in Surrounding Area
- Loss of Utilities (*including: water, sewage, electricity, etc.*)
- Animal Disturbance (*including; snakes, etc.*)

1.2. 1.2 DETERMINE THE MAGNITUDE OF THE EMERGENCY

It is the immediate responsibility of all staff to make the Principal or Assistant Principal, aware of any potential emergency as soon as it becomes known.

Identifying the magnitude of an emergency will determine the allocation of resources. Three levels of emergency are described below.

- **Internal:** An emergency handled by school personnel without assistance from outside services. Examples include; temporary power outage and/or animal disturbances.
- **External support:** A moderate to severe emergency in most cases is handled by school personnel with the assistance from outside agencies (e.g., police, fire, rural fire service, ambulance, etc.). Examples include; fires on the school grounds and acts of violence.
- **External management:** A major disaster that school personnel cannot handle without the management of outside services. Examples include; major bushfires.

1.3. 1.3 DETERMINE IMMEDIATE RESPONSE ACTIONS

There are three primary emergency responses which require specific procedures. These are; Lockdown, Emergency Evacuation and Off-site evacuation.

- A **Lockdown** takes place when there is an immediate threat of violence on school grounds. This means students stay inside in the place where they are when the alarm sounds or immediately proceed to the nearest supervised classroom.
- An **Evacuation Assembly** (*on site*) occurs when it is safer to bring the whole school together in the Evacuation Assembly Area (the School Hall). A second evacuation point could be nominated on the day of the emergency by the Principal or Assistant Principal, or a representative from an emergency services (via the Principal).
- **Off-site Evacuation** is likely when being on the school grounds is not safe and evacuation from the premises is preferable, such as when there is a major bushfire threat. Off-site evacuation is advised by an external Emergency Services Agency.

2. IMMEDIATE RESPONSE ACTION

1.4. 2.1 LOCKDOWN [*ALARM SOUND WITH SHORT URGENT MONOTONE BURSTS*]

Decision made that the type/magnitude of the emergency determine that being indoors would provide a greater level of protection to staff and students.

- **Alarm:** Lockdown alarm - rings or until manually shut off
(<https://drive.google.com/file/d/0B4Bb2KY9VvTqZkwtSFjYW8waWM/view>)
- **Description of action (inside):** Students and staff remain inside pending further instructions.
- **Description of action (outside):** Make way to nearest supervised classroom; if on the oval, make way to D12.

1.5. 2.2 EMERGENCY EVACUATION [*ALARM SOUND WITH LONG ASCENDING TONES*]

The whole school, and visitors are required to make their way to the Evacuation Area (School Hall)

- **Alarm:** Emergency alarm
(<https://drive.google.com/file/d/0B4Bb2KY9VvTqcG5CZTFtZGpXaE0/view>)
- **Description of action:** Students and staff evacuate/move via designated routes to the Emergency Assembly Area (Hall).
- **Junior School:** form into **Home Room/Class Lines**.
- **Secondary School:** form into **Year Group Lines**.

1.6. 2.3 OFF-SITE EVACUATION

Decision made that the type/magnitude of the emergency determines that it is unsafe to remain on the school grounds. Normally this would follow an Evacuation Assessment.

3. 4. LOCKDOWN

1.7. 4.1 RATIONALE

These procedures are to apply in the event of a sudden danger from a person or persons (e.g. mentally unstable person, violent person, terrorist, intruder, hostage situation, etc.) or advice from the police or other emergency authorities that a whole site lock down procedure is appropriate.

1.8. 4.2 ALARM
